

Math 22: Linear Algebra with Applications
Fall 2019 - Survey

Name and Year:

Please answer the following questions, so that I can adapt the course better to the students:

1. What is your major?

 2. What other math classes have you taken at Dartmouth and who were the instructors?

 3. Which days (Tuesday, Thursday or Sunday) work best for you for office hours?

 4. What do expect to get out of this class?

 5. Are you familiar with vectors in the plane or in space?

 6. Have you ever used a computer algebra system, like Mathematica, Maple or Matlab?
If so, which one?
