

Math 71 Homework #0

Turn in in class on Monday separately from Homework #1

Name:

Major(s):

What other math classes have you taken at Dartmouth and who were the instructors?

What do you hope to get out of Math 71?

Is there anything I should know about your math background?

Tell me something interesting about yourself to help me get to know you.
For example, I like to scuba dive and got my Ph.D. back in the dark ages at Berkeley.
