

## Math 73/103 Homework #0

Turn in in class on WEDNESDAY or leave in my mailbox

Name:

---

THIS SECTION FOR UNDERGRADUATES ONLY:

Major(s):

What other math classes have you taken at Dartmouth and who were the instructors?

---

What do you hope to get out of Math 73/103?

Is there anything I should know about your math background? For example, have you had courses in Real Analysis, Complex Analysis, the Riemann integral or the Lebesgue integral?

On the back, tell me something interesting about yourself to help me get to know you. (For example, I got my Ph.D. back in the middle ages at Berkeley, I like to scuba dive and I've spent a fair bit of time in Australia and New Zealand working with collaborators there.)
